PITCH DECK

WARGATE

ABOUT

Wargate is developing a AAA MMORPG shooter that will push creative boundaries by integrating blockchain and NFT technologies directly into gameplay. Players will be able to truly influence the living, breathing game world through their actions while also earning real value - a groundbreaking concept.

With integrated artificial intelligence, players can expect thrilling battles, deep customization options, and a richly detailed universe to explore and conquer. Lots of guns, ammo & sharp blades.

Therefore, we will be glad if you help us with this.

STORYLINE

For Wargate, we've crafted an immersive narrative that pulls players in while also empowering them to shape the story through their in-game actions and decisions. This dynamic world where players collaboratively determine the direction of unfolding events is the foundational element that will keep the experience continuously fresh and engaging.

The collective decision-making of the community guides the progression of the story and character arcs through a voting system.

More importantly, it is the players themselves who will play a crucial role shaping the ongoing story through their direct actions and decisions in-game. Their gameplay participation will determine the consequences experienced by all community members.

This dynamic, user-influenced narrative is the foundational element upon which we are building our responsive open world.

WORLDS AND INHABITANTS

Vast worlds await your exploration, each filled with diverse cultures and mysterious lands. As you travel between realms, you will encounter all manner of terrain, from lush forests and towering mountains to vast deserts and frigid tundras. Within these worlds thrive untold numbers of unique creatures, both friendly and fearsome.

As you explore the realms, you'll have the opportunity to interact with worlds in different ways. You may choose to ally with a region, helping secure its freedom and prosperity against those who would dominate it. Or you could seek to expand your influence by capturing new territories.

However you decide to engage with each location, your actions will shape the fate of these worlds and their inhabitants. Uncover hidden secrets and forge your own destiny as you liberate or bring realms under your control throughout your epic journey.

CHARACTERS

You'll have complete freedom to customize your character from the ground up. Choose from multiple races, each with their own distinct attributes and talents to aid your quest.

GUNS & AMMO

This game offers a huge selection of weapons and armor to suit all playstyles. Whether you prefer ranged weapons or like getting up close in melee combat, there are many options to choose from.

NFT TICKETS

NFT showcases a concept art of characters that will feature in the Wargate game and the following Metaverse. Through it, you'll be able to discover the races, creatures, and monsters that populate the world, and even create your own unique character.

NFT ticket holder, you'll receive access to exclusive closed alpha tests, in-game items to kick off your adventure, and a reserved position for our token presale.

Polygon blockchain

NFT collection is built on the Polygon blockchain, which we believe is the most convenient solution that eliminates the need to overpay for Gas & fees

Low GAS & Fees

15,000 NFTs

15,000 unique NFT tickets will be issued. Note that the process takes time, as each NFT is individually created and post-processed, ensuring its exclusivity.

Each NFT is one-of-a-kind

Gifts to owners

Every NFT is accompanied by special gift boxes that contain Common, Rare, Epic & Legendary in-game items. They can be used, swapped, or sold.

Gifts & access to events

Developing living, breathing virtual worlds is a complex undertaking that evolves through many iterative stages. At Realm of Magic, our ambition is to forge not merely a game but a fully-realized digital realm for Players to immerse themselves within.

Q3 2023

1. Build core team
2. Story and plot
3. Game concept
4. First character reveals
5. First NFTs to launch
6. Social media

Q4 2023

1. Character design development
2. Level design
3. Core gameplay prototype
4. Website v1 launch
5. Whitepaper development
6. GitBook development
7. Community forming

Q1 2024

1. Monster NPCs design development
2. Battle Royale level design
3. AI integration
4. First game trailer to reveal
5. Blockchain integration
6. Complete 15,000 NFT tickets
7. Marketplace

This roadmap lays the initial foundations, yet the journey remains open-ended – our vision will organically expand in response to emerging technologies and the evolving desires of our community.
